

Category: Public Works Department

Employee Name: John D. (Field Supervisor)

Date of Incident: October 25, 2025

Location: 4th Avenue and Maple Street, Downtown

Complaint Details:

I would like to report that road repair work on 4th Avenue has been ongoing for more than two weeks without visible progress. The area remains blocked off with minimal signage, causing major traffic congestion during rush hours. When I approached Mr. John D. to ask about the delay, his response was dismissive and unprofessional. I believe the matter needs attention to ensure the project is completed on time and that communication with residents improves.

Requested Action:

Please review the current project schedule and ensure better communication with the public regarding expected completion dates.
